

F.C. Seattle

2006 Academy feedback

Here is what the parents
from last year thought....

...I was not sure what to expect when I signed my daughter up, but now I feel the training was well worth the time and money...

...after the Academy he has much more confidence in his ability to control and distribute the ball...

... We all enjoyed the academy very much. The coaches were very good with the girls. This training will definitely help my daughter throughout her soccer career...

... She was a superior player in Rec, but might be interested in a year to play select, so the Academy instruction has been helpful to keep her competitive and interested...

.... I liked the emphasis on skill development and not team play/scrimmage. It was what my son truly needed as this time of his soccer development...

... Sammi had such a great time at the academy...

... Chloe has really enjoyed the spring academy, and her skills have noticeably improved. We are delighted with her progress...

...the academy has done wonders for both my son and daughter...
